

BLUE OPEN

Open all your doors with your mobile
or your keyboard

and without changing the equipment you have installed!

With **BLUE** OPEN, you can manage access points to your home from the house (Bluetooth) or anywhere in the world (WiFi), and provide access to 7 users from the app. Its small size and design mean **BLUE** OPEN can be integrated into garage doors, front doors, garden doors, etc., and all other automated doors or doors with electric locks. With **BLUE** OPEN, you can enter and leave your home by just using your mobile or your keyboard!
